

# Durst Load Bank LBT-72-240B

Durst mobile switched load bank, offering maximum capacity with ease of use.

## Features:

- A true portable high capacity load bank
- Digital meters Volt & Amp ( Requires. 240 Vac )
- Banana terminals for connection to Data logger
- Fan cooled
- 100% duty cycle
- Nominal voltage 72 Volts DC
- Nominal Amps Switching 16 Position 0-240 Amps.  
Switch 1. 8 position of 15 amps each Total 120 Amps DC  
Switch 2. 8 position of 15 amps each Total 120 Amps DC
- Reverse polarity warning light
- Internal wiring high temperature silicone
- Dc leads 35mm<sup>2</sup> Flexible Cable 2 Mtrs long
- Suitable for Aviation, Defence, Solar, UPS system, etc
- Powder coated steel cabinet
- Fully insulated clamp, colour coded
- Designed in Australia for Australian conditions & climate
- Custom Built to your requirements on request
- Models available for other voltages and currents
- Carry version available upon request
- More Load for your \$
- Size W=650mm D=500 H=800 Approx
- Weight 42 Kgs. approx

## Optional Features

- Anderson plugs & Sockets
- Terminals for Amp leads
- Analogue Volt meter with dual sprung movement
- Analogue Amp meter with dual sprung movement
- Castors 100mm Diameter
